

"OWL EYES" BINGO

When you put on your "owl eyes," you'll notice so much more about your surroundings! This BINGO card will help you to notice the little interesting details in your environment, like a budding flower, or coyote scat, a fallen feather, or a wriggling earthworm! Once you find them, add them to your nature journal! Compete against a sibling or parent - the first person to find everything that is included in one straight line of the BINGO card (horizontal, vertical, or diagonal) is the winner! Or, take your time and try to find everything on the card over the next week. Take notes as you observe these interesting little details outside!

bird's nest

animal scat

flower in bloom

feather

shiny rock

seed

Douglas squirrel

spiderweb

thorn

bumblebee
